

## NCEA Exclusions List

The NCEA Exclusions List was developed to avoid the use of credits from duplicate standards towards NCEA qualifications. Specifically, the registration of achievement standards that recognised the same outcomes as unit standards necessitated a mechanism to prevent 'double dipping'. The Exclusions List applies to all registered NQF qualifications.

| Subject                                | Level 1              |                              | Level 2              |                              | Level 3              |                              |
|--|----------------------|------------------------------|----------------------|------------------------------|----------------------|------------------------------|
